Ho Chi Minh, Vietnam

OBJECTIVE

Senior Mobile Developer with 7+ years of experience specializing in React Native and cross-platform mobile architecture.

Expertise in building scalable production applications, developing native modules with Swift/Java/Kotlin, and delivering apps used by thousands of users.

Experienced in leading small engineering teams, designing maintainable mobile architectures, and shipping products from concept to production.

SKILLS

CORE SKILLS:

- **Programming Languages**: JavaScript, TypeScript

- **Mobile**: React Native, Swift, Java/Kotlin, Flutter

- **Web**: React, Vue.js, Next.js

- **State Management**: Redux Toolkit,

EDUCATION

Ho Chi Minh City University of Technology (Bach Khoa HCM), Major: Computer Science

HCMUT 2014 - 2017

WORK EXPERIENCE

Freelance, Senior Mobile Developer

JAN 2026 - PRESENT

- Worked on multiple React Native & Flutter applications, including:
  - Healthcare apps
  - Utility apps
  - Lifestyle apps

- Key responsibilities:
  - Developed production mobile features.
  - Integrated REST APIs.
  - Published apps to App Store and Google Play.

- Technologies: React Native, Zustand, Native Modules (Swift, Kotlin), Flutter

Quintet Systems, R&D Department - Senior Mobile Developer

OCT 2024 - DEC 2025

- Project **CALS React Native SDK**
  - Designed and implemented a React Native SDK built on top of existing native Android (Kotlin) and iOS (Swift) SDKs.
  - Improved developer experience by providing UI/UX feedback and documentation.
  - Supported multiple internal teams with SDK integration and troubleshooting.
- Technologies: React Native, Zustand, Native Modules (Swift, Kotlin), AWS Amplify, GitLab CI/CD

- Project website **Hanwha AI ChatBot**:
  - Developed and deployed a production website based on product requirements.

Zustand, MobX

- **Backend & APIs**: REST APIs integration, GraphQL APIs integration, Firebase (Firestore, Analytics, Crashlytics, Notifications), AWS integration (Amplify, S3, DynamoDB), NestJS

- **Testing**: Jest, Detox, Cypress

- **DevOps & Distribution**: GitHub Actions, Fastlane, GitLab CI/CD, App Store Connect, Google Play Console

- **Tools**: Xcode, Android Studio, Figma, Proxyman, Claude Code, Codex

SIDE PROJECTS

- Portfolio: https://cuongnguyen.dev/
Personal website showcasing my mobile development work, projects, and technical experience.
  • Technologies: React, Next.js, Vite, TailwindCSS

INTERESTS

• Badminton, Marathon, Motorbike, Camping

  • Migrated legacy codebase from Vue 2 to Vue 3.
- Technologies: Vue.js

- Also supported team Quintet Vietnam:
  • Led a team of 5 developers.
  • Managed multiple projects and provided technical guidance.
  • Conducted code reviews and offered feedback to ensure quality and maintainability.

Bamboo Careers, Mobile Developer

OCT 2022 - AUG 2024

- Project **Bamboo Careers** - Mobile App
  • Built the Bamboo Careers mobile app from scratch as an early team member.
  • Implemented key product features including Career Paths, Salary Advisor, and AI-powered chatbot.
  • Integrated Firebase backend services (Firestore, Analytics, Notifications).
- Impact: 2,000+ installs, 50+ daily active users, and 10+ paying subscribers.
- Technologies: React Native, Redux, Firestore Database, Firebase services, IAP, ChatGPT API

Asure Pro (Contract), Mobile Developer

OCT 2022 - APR 2023

- Project **Long Heng** & **Long Heng Biz** - Mobile App
  • Built and published apps on App Store & Google Play.
  • Improved usability through collaboration with design teams.
- Features: Lifestyle app, Air-con service provider
- Technologies: React Native, Redux

Vietcetera, Software Developer

AUG 2021 - OCT 2022

- Mobile App **Vietcetera**:
  • Rebuilt the Vietcetera mobile app from scratch to improve performance and scalability.
  • Implemented core features including Articles, Podcasts, and Video content.
  • Collaborated with product teams to define technical solutions.
  • Delivered a production app reaching 30,000+ installs across iOS and Android.
- Technologies: React Native, Redux, REST APIs, GA4, SmartOcto

- Web **CMS Vietcetera**:
  • Built web CMS (ReactJS)
- Features: Podcast Management, Notification Management, Article Management,...

Kyanon Digital, Software Developer

AUG 2020 - AUG 2021

- Project **BIPBIP**:
  • Convenience grocery and food shopping app

- Technologies: Redux, RESTful API

- Project **Starbucks Singapore**:
  • Developed features for a large-scale food & drink ordering application.
  • Collaborated with international teams, including Starbucks Singapore and Ascentis.
- Features: Food & Drink ordering, Loyalty points, eGift, Merchandise store
- Technologies: React Native, Redux, RESTful API

- Project **Momee**:
  • Developed apps based on requirements.
- Features: Social app, upload post, group, take pictures with filters
- Technologies: MobX, GraphQL

Ant-Tech, Mobile App Developer - React Native

JUN 2019 - AUG 2020

- Worked on multiple React Native applications, including:
  • Social media apps
  • IoT controller apps
  • Dating and lifestyle apps

- Key responsibilities:
  • Developed production mobile features.
  • Integrated REST APIs.
  • Published apps to App Store and Google Play.
  • Led a mobile team of 3 members.

PIXA Studio, Mobile App Developer - React Native

JUN 2018 - AUG 2018

Ho Chi Minh City University of Technology Internship
- Developed features for **Toeic Corner**, a mobile application for learning English.
